Hall, shop and restaurant - the original hall dates back to the 11th century – definitely worth stopping off for a visit.

Once past St Peter’s Hall, carry on along the narrow road until you reach St Peter, South Elmham where you can connect with the Beccles and Bungay loop.

Carrying on along the Bungay to Homersfield Loop, keep following the Heart of Suffolk signs through St Margaret, South Elmham until you come to South Elmham Hall and Batemans Barn which are great places to visit and stop for refreshments.

For the loop, take the suggested link right after the crossroads at St Cross, South Elmham which will link you into Route 30 from the Harleston direction and back to Bungay via Homersfield. Look out for the historic grade II listed bridge – the first to be constructed using concrete.
