The rivers and estuaries of Suffolk provide a varied and unique experience for sailing, fishing, walking and cycling.

Bird watching is also a fantastic reason for visiting the area. All of the estuaries are designated due to their national and international importance for bird species such as Avocet, Redshank and Shelduck to name a few!

The ferry services are located in the Suffolk Coast and Heaths Area of Outstanding Natural Beauty (AONB) one of Britain’s finest landscapes. The AONB covers 150 square miles and receives special protection because of its outstanding landscape, heritage and wildlife.

There are 47 AONBs in England, Wales and Northern Ireland which include some of our nation’s finest countryside.

A wonderful way to visit the beautiful coast and estuaries of the AONB while walking or cycling.
